公司概况 OVERVIEW COMPANY

泊头市亚奇铸业有限公司始建于1996年，坐落于中国“铸造名城”河北省泊头市，公司总占地面积5万余平米。其铸造和加工设备设施以及环保装备和运行状态居于全国先进水平，被认定为中国绿色铸造示范企业，全国铸造行业排头兵企业，中国铸造协会教育培训基地。

公司建立了完备的材料分析和加工过程的实验和检验检测体系，主要装备包括日本东久水平自动造型线、OBLF光谱仪、日本马扎克卧式加工中心、立式加工中心、蔡司三坐标等60多台套。专注于为客户提供高品质的球铁、灰铁毛坯件、加工件及成品零部件。主要产品如马达支架、泵体、涡轮增压器壳体、端盖、轴承体、箱体、壳体、托架、集线器等，应用于水处理、涡轮增压、工程机械、振动电机、发电机、汽车、轨道交通等行业，部分产品应用在海底、核电等特殊领域和场合。产品出口到美国、德国、英国、日本、意大利、墨西哥等20多个国家和地区。

为确保持续可靠的质量和供货能力，以及健康安全的职业环境，公司同时运行ISO9001和IATF16949质量管理体系、ISO14001环境管理体系、OHSAS45001职业健康安全管理体系，全部通过了认证，2023年又获得了CNAS ISO/IEC17025和PED认证证书。经过多年发展，在业界得到广泛的认可，公司已经成为ABB、罗托克、格兰富、威乐、赛莱默、荏原、博世力士乐、特灵空调等国际知名厂家的战略合作伙伴。

公司以为客户提供铸造和加工零部件一站式快速、可靠的解决方案为使命。公司不断在工艺技术上积累和创新，为与客户的深度融合与战略合作提供了坚实的基础。亚奇公司全体员工热切欢迎中外朋友莅临指导。

Botou Yaqi Casting Co., Ltd. which was founded in 1996, is located in Botou City, Hebei Province, that's famous for its casting industry, covers an area of more than 50,000 square meters. The foundry and machining equipment and facilities, as well as environmental protection equipments and operation status are in the advanced level in China. It has been certified as "China Green Foundry Demonstration Enterprises", "National Foundry Leader Enterprise", and "The Education and Training Base of China Foundry Association".

YAQI has established a complete material analysis and testing system and machining processing inspection system. The main equipment includes Japan Tokyo horizontal automatic molding line, OBLF spectrometer, Japan Mazak horizontal machining center, vertical machining center, Zeiss CMM and so on. It's more than 60 sets. Focus on providing high quality Gray iron castings, ductile iron castings both normal and low temperature impact or austempered ductile iron castings, special iron alloy castings, machined parts and finished parts, such as pump body, turbocharger housing, end cover, bearing body, gear case, volute, bracket, hub etc. They are used in water treatment, turbocharger, Pump&Valve, Hydraulic, Construction Machinery, Truck, Mechanical And Electrical, Pipe Fittings and other industries. Some products are used in the seabed, nuclear power and other special fields and occasions, exported to the US, Germany, UK, Japan, Italy, Mexico and more than 20 countries and regions.

In order to ensure continuous and reliable quality and supply ability and healthy & safe occupational environment, YAQI runs ISO 9001 & IATF16949 quality management systems, ISO14001 environmental management system, OHSAS 45001 occupational health and safety management system and has passed the certification. In the year of 2023, YAQI passed the CNAS ISO/IEC 17025 and PED certification also. After years of development, Yaqi has been widely recognized in the industry and has become the strategic partners of some international well-known manufacturers, such as ABB, Rotork, Grundfos, Wilo, Xylem, EBARA, Bosch-Rexroth, Trane, etc.

YAQI's mission is providing customers a one-stop, fast and reliable solution for casting and machined parts. We continues to accumulate and innovate in technology, providing a solid foundation for deep integration and strategic cooperation with customers. We all warmly welcome the friends all over the world to YAQI for visit and cooperation.

新工厂 NEW PLANT COMPANY

投产时间：2026年第一季度
Start Production time: 2026 Q1

HWS 静压造型线
HWS moulding line of static pressure

HWS 静压造型线砂箱尺寸1200*900*350/300mm
HWS 静压造型线年产能 40000吨
HWS moulding line of static pressure Flask Size 1200*900*350/300mm
HWS moulding line of static pressure Capacity 40000 Tons Per Year

牧野卧式加工中心
MAKINO Horizontal Machining Center(a120nx)

马扎克柔性加工线
Mazak Flexible Machining Lines 6800

电炉 > Electric Furnace

勇于改进 不断创新 Continuous Improvement

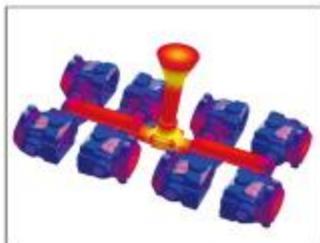

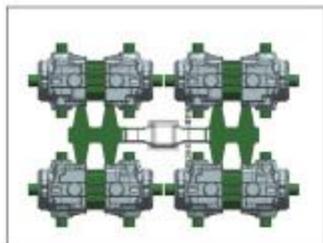

● 在产品开发过程中，广泛采用先进的计算机辅助设计和凝固模拟技术，不但提高了工艺设计的可靠性和预见性，还大大缩短了产品从开发设计到投产的时间周期，提高了企业的技术水平，保证了产品质量。

● During developing new products, Yaqi introduces advanced assistant designing and solidification stimulation technology with computers to improve the reliability and forecast for casting process shorten the developing lead-time for new products, enhance the technology level and guarantee the quality.

东久自动铸造线 > Tokyu Automatic Foundry Line

先进的生产设备

Advanced EQUIPMENT

铸造设备

日本东久自动铸造线

双工位自动造型
造型速度 100箱/小时
砂箱尺寸 600 × 700 × 250/250 (最大) mm

主要特点:

- A. 垂直造型, 水平分型
- B. 起模、合模精度高
- C. 铸型高度、压实比可选择
- D. 模具更换便捷

FOUNDRY FACILITIES

Tokyu Automatic Foundry Line

Double-station for drag
Molding speed 100 boxes/hour
Molding flask 600 × 700 × 250/250 (max) mm

Main feature:

- A. Vertical molding, horizontal parting
- B. With high precision of stripping and close-up.
- C. Selectable mold height and specific pressure.
- D. Pattern plate easily replacement.

先进的生产设备

Advanced EQUIPMENT

- 工欲善其事，必先利其器。先进的设备、宽敞的厂房……这些是我们雄厚实力的展示，也是我们发展历程的见证，精良的设备代表拥有强大的生产保障能力，并确保卓越的产品品质。
- Good tools are essential to do the job well! Advanced equipment, spacious workshop…… is showing our abundant strength, and is also the witness of our development history, excellent equipment represents strong production security strength, and ensures the outstanding product quality.

应用领域 FIELD APPLICATION

●亚奇产品广泛应用于泵阀、控制、工程机械、电机等工业领域，是所有行业的基础。公司始终坚持“质量第一，真诚服务”的原则，为各行业提供品质超群的铸件产品和服务。我们还在不断地开发和完善新产品。让亚奇的产品更好的为国内外各行业的制造和建设提供服务。

●Yaqi Products apply to various industry fields, such as pump and valve, controlling, construction mechanism, electric motor, etc. and become their foundation. Yaqi persists to the principle of quality first and service best, makes our products develop toward multidirections and provides various industries with high quality casting products and perfect service. We also continue developing and improving new products so as to better serve the construction and manufacture for domestic and overseas various industry fields.
